

Microplane
THE ORIGINAL®

NEW 3-in-1 Twist & Zest

Highly versatile and convenient for baking and cooking sweet and savory dishes that call for citrus, the 3-in-1 Twist & Zest combines a reamer, a zester, and a channel knife for twist garnishes into one durably constructed, space-saving tool. The well-designed, transparent reamer at the top of the gadget efficiently extracts juice from citrus fruits, and also doubles as a protective cover for the tool's zest blade, which features an original Microplane®, made in the USA stainless steel blade. Microplane's extraordinarily sharp blade creates finely grated citrus zest without removing the bitter white pith. On the opposite end of the tool, an equally sharp, circular channel knife blade (twist tool) transforms citrus peel into beautiful twist garnishes with ease. The aromatic and flavorful citrus peel twists add panache to desserts, such as cupcakes, tarts, and quick breads, and also make a zesty garnish to savory foods, like roast chicken and steaks. A clear protective cap is included for the twist tool for safety when not used and during storage.

Features:

- Remove reamer to expose zesting blade
- Original Microplane Zester blade is made in the USA
- Channel knife makes medium twists for garnishing
- Protective cap covers channel knife
- Soft-grip handle
- Perfect for baking with citrus
- Dishwasher safe/Hand wash covers
